Part II: Certification	II. Health information		
	<p>II.1. Health attestation</p> <p>I, the undersigned official veterinarian or the authorised veterinarian responsible for the holding described in point I.11 of (insert name of the country) certify that:</p> <ol style="list-style-type: none"> 1. The country of dispatch is a member country of the World Organisation for Animal Health (OIE). 2. Newcastle Disease (ND) and Avian Influenza (AI) in poultry and other birds kept in captivity, are notifiable in the country of dispatch. 3. The bird(s) described in point 1.28 has/have been identified in accordance with Article 66(2) of Regulation 865/2006 and in such a way that the original holding, centre or organisation can be traced. The bird(s): 4. has/have been subjected today, within 48 hours prior to the date of dispatch, to a clinical inspection and do not show any clinical signs of disease; 5. have been isolated from other birds that do not have the same health status and kept continuously in a bio-secure establishment, for at least 30 days prior to and until the date of dispatch; 6. come from a holding or a region that is not subject to animal health restrictions in connection with Newcastle Disease(ND)or Avian Influenza (AI); 7. come from a holding where there have not been outbreaks of Newcastle Disease (ND) or Avian Influenza (AI) nor in the surrounding area within a radius of 10km for at least 30 days; 8. only in the case of psittacines, come from a holding where there have not been outbreaks or detections of Chlamydia psittaci nor psittacosis (human disease) in the last 60 days and have not been in contact with animals from a holding on which psittacosis or Chlamydia psittaci has been diagnosed in the last 60 days; 9. were sampled 7 to 14 days prior to shipment, with both oropharyngeal and cloacal swabs taken on [dd/mm/yyyy], and at least 48 hours after the start of isolation as per point 5 above. The swabs have been subjected to a laboratory virus isolation or RT-PCR test, performed in an official laboratory, with negative results for any Avian Influenza and Newcastle Disease virus. The testing has been carried out in accordance with the OIE Manual of Diagnostic tests and vaccines of Terrestrial Animals; (1) 10. <input type="checkbox"/> [The establishment of origin and the bird(s) identified above comply with the Avian Influenza protection provisions of Commission Decision 2007/598/EC and were vaccinated against avian influenza on [dd/mm/yyyy] with vaccine (name) and come from a holding on which vaccination against avian influenza was carried out for all birds during the past 12 months.] <p>Transport requirements:</p> <ol style="list-style-type: none"> 11. I certify that I have received written confirmation from the owner or their appointed agent that the birds will be transported in new containers or containers suitable for and that have been cleansed and disinfected satisfactorily as inspected by me on this day. The disinfection used, (name) is officially recognised as effective against viruses, and the recommended contact time of the disinfectant was observed. 12. The container must bear on the outside of the container the unique certificate ID number that corresponds with the ID number provided for on the accompanying health certificate. 13. The containers and/or transport is designed to prohibit the discharge of bedding, faeces and liquid, with capacity sufficient for the intended journey 		

Part II: Certification	II. Health information								
	Notes (*) Those countries subject to the transitional import arrangements include: an EU member State; Liechtenstein; Norway and Switzerland. References to European Union legislation within this certificate are references to legislation which has been retained in Great Britain as retained EU law as defined in the European Union (Withdrawal) Act 2018). References to Great Britain in this certificate include the Channel Islands and the Isle of Man. Part I: Box reference I.6: Person responsible for the load in Great Britain: this box only needs to be completed if the certificate is for a transit of GB and /or where the consignee in Part I.5 is not based in the UK. Box reference I.19: Use the appropriate commodity code. Box reference I.23: Identification of container: each crate, cage or compartment must be identified. Box reference I.26 or I.27: Select option according to whether the consignment is a transit or an import into Great Britain. Box reference I.28 : Individual closed leg ring or transponder conforming to ISO standards 1174 and 11785. In exceptional circumstances (for welfare reasons) with agreement from the UK Competent Authorities, prior to import or transit, any other agreed methods. Part II (1) Delete as appropriate.
