

### **Fast advice 33-2007 of the Scientific Committee of FASFC: frequency of inspections**

This advice concerns a project of royal decree modifying the royal decree of December 22, 2005 fixing the frequencies of the inspections requiring the presence of an agent of the federal Agency for the Safety of the Food chain in the establishments of the meat and fish sector within the framework of the control plan of the Agency. The frequencies of inspections are modified based on management decisions. Within the scope of its competence, the Scientific Committee therefore does not pronounce itself on the project of royal decree.
